CALL FOR PAPER

2017 Australasian Computing Doctoral Consortium (ACDC 2017)  
<http://anslab.org/events/ACDC17/index.html>  
Geelong, Victoria, Australia (only 70 km away from Melbourne City)  
January 31 – February 3, 2017

Paper submission : August 8, 2016 (extended to 22<sup>nd</sup> August 2016)  
Author notification: October 17, 2016  
Camera-ready full papers: November 7, 2016.

=====

Main Features:

- \*\*\* Industry track for research collaborations
- \*\*\* World class keynote speakers
- \*\*\* A number of Special Issues
- \*\*\* A flagship annual conference in Oceania region
- \*\*\* Student travel grants
- \*\*\* Close to Australia Open and Great Ocean Road

=====

The Australasian Computing Doctoral Consortium (ACDC) provides an opportunity for doctoral students to present their research and early results and receive advice and constructive commentary from research experts. Submissions are invited from current PhD students in computing who would benefit from feedback on their research by a panel of established researchers. The consortium will operate in a workshop format. Up to ten applicants will be invited to present their work during ACDC 2017, and experts will be invited to attend the presentations and discuss each student's work. These selected applicants will receive complimentary ACSW 2017 student conference registration (if they are not presenting a paper in the other conferences), although ACDC will not be able to provide travel or accommodation costs. Finally, PhD students who wish to attend, but have not submitted a paper, are welcome --- however, be sure to notify the organisers well in advanced since numbers are limited.

ACDC offers delegates an excellent opportunity to:

- Exchange research experiences
- Explore new trends and challenges within the field
- Stimulate new research activities
- Forge new research collaborations
- Close the academic–industry gap
